N

False A

False B

True N

Actual class

	A	B	N
A	True A	False B	False N
B	False A	True B	False N
N	False A	False B	True N

The diagram shows a 3x3 confusion matrix. The columns are labeled 'Predicted class' (A, B, N) and the rows are labeled 'Actual class' (A, B, N). The cells contain the following text: (A,A) 'True A', (A,B) 'False B', (A,N) 'False N', (B,A) 'False A', (B,B) 'True B', (B,N) 'False N', (N,A) 'False A', (N,B) 'False B', (N,N) 'True N'. Dashed green boxes highlight the cells (A,B), (B,A), and (N,B), which represent false predictions for classes A and B.
